

## 9 Quick Tips for a Smooth Shave

**Tip #1 – Wet your skin and hair to soften it**

**Tip #2 – Warm up your face.**

**Tip #3 – apply a shaving cream or gel.**

**Tip #4 – Use sharp blades.**

**Tip #5 – Shave with the grain.**

**Tip #6 – Easy does it.**

**Tip #7 – Rinse after each swipe of the razor.**

**Tip #8 – Missed a spot? apply a shaving cream or gel.**

**Tip #9 – Cool and hydrate.**

1. **Shave in the direction that the hair grows.** This is an important step to help prevent razor bumps and burns.
2. **Store your razor in a dry area.** Between shaves, make sure your razor dries completely to prevent bacteria from growing on it. Do not leave your razor in the shower or on a wet sink.
3. **Men who have acne should take special care while shaving.** Shaving can irritate your skin, making acne worse.
4. **If you have acne on your face,** try experimenting with electric or disposable blade razors to see which work best for you.
